September 18, 2020

Dear Parents/Guardians:

We have been in session for two weeks and I would like to commend all of the students. We have had 100% of our students prepared and wearing their masks on the buses. The protocols are new for all of us and the students have really shown their resiliency.

In order to stay within the Governor's required guidelines new bus procedures are in place. All students have assigned seating. With this being said we are getting a lot of requests for bus changes. Unfortunately due to the current guidelines the district is strongly discouraging bus changes. Parents and Guardians will be responsible for providing their own transportation if changes are required. Bus changes will be reserved for emergency situations.

Thank you for your patience and understanding in this matter. We are in this together.

Sincerely,

Mindy Morrison
Transportation Supervisor
